

## The 2019 Homecoming Lecture

**Dr. Greg Everson**

CEO, Inventor & Founding Member of  
HepQuant, Greenwood Village, CO

*Presents:*

***“Measuring the Liver’s Function”***

***Friday, October 4, 2019 at 4 PM***  
***Abbott Hall Room 101***

Dr. Everson is Chief Executive Officer and Managing Member of HepQuant, LLC, a company he founded in 2007 with a small group of investors. Dr. Everson received his MD degree from Cornell Medical College, NY, NY and is currently Past Professor of Hepatology at the University of Colorado, Denver. He is a distinguished Fellow of several professional societies and has published over 300 original papers, books, and book chapters in peer-reviewed journals that include *Hepatology*, *New England Journal of Medicine*, *The American Journal of Gastroenterology*, *Alimentary Pharmacology and Therapeutics*, and *Expert Reviews in Gastroenterology and Hepatology*. He has authored several “self-help” books on a variety of liver diseases: *Living with Hepatitis C: A Survivor’s Guide*, *Curing Hepatitis C*, *Living with Hepatitis B: A Survivor’s Guide*, and *Living with Hemochromatosis: Answers to your Questions about Iron Overload*.

He is a frequently invited speaker and has presented his work at clinical and scientific meetings nationally and internationally. His research has spanned many topics in both basic and clinical hepatology—bile acid and cholesterol metabolism, mechanisms of gallstone formation, effects of female steroid hormones on liver metabolism, hepatitis C, liver transplantation, polycystic disease, and quantifying the function of the liver with unique minimally invasive tests.

After over twenty years of research, Dr. Everson founded HepQuant, LLC in order to commercialize his invention of novel technology for noninvasive assessment of chronic liver disease.
