

**University of North Dakota**  
**US MASTER Scholarship Program**

**EARLY WARNING PROGRESS REPORT**

The US MASTER Scholarship Program (Undergraduate Studies with Mathematics and Science Training, Exploration and Research) at the University of North Dakota is designed to provide scholarships to high-achieving college students who are enrolled full-time as biology, chemistry, environmental studies, geography & GISc, mathematics or physics & astrophysics majors and who have an interest in STEM. These scholarships are being funded by the National Science Foundation through a generous S-STEM grant to the University of North Dakota.

Name of student: \_\_\_\_\_  
is a participant in the US MASTER Scholarship Program at the University of North Dakota.

To aid in the mentoring of all US MASTER students, we ask that you please complete the following and return it to the student within a week. We do understand that only qualitative attendance data may be available at that point; however, even this limited information may be sufficient to evaluate the student's *involvement*. Any questions you might have should be directed to Dr. Alena Kubatova, Professor, Chemistry, [und.US\\_Masters@UND.edu](mailto:und.US_Masters@UND.edu) (tel. 7-0348). The completed form should be delivered by a student to **his/her US MASTER advisor**.
